

Jenga®

NATIONAL PARKS

Edition

Ages 6 to Adult • 1 or More Players

Contents:

- 54 National Parks Edition hardwood Jenga® blocks
- Loading tray to assemble tower

Object:

Remove one block at a time from the tower, and then stack it on top. The last player to stack a block without making the tower fall wins the game!

Setup:

- The most “fanatic” national parks fan assembles the tower (all players vote). Using the loading tray, build up the tower by placing layers of three wooden blocks at right angles to each other on a flat surface. When you finish, you’ll have a solid, 18-story tower that can more than double during play!
- Carefully stand this loading tray upright, then remove it so the tower of blocks stands by itself.

Traditional Game Play:

The national parks fan that built the tower goes first. Play passes to the left.

On your turn

Carefully remove a block from anywhere **BELOW** the highest completed story by using only one hand. Share the national park fun facts by reading them out loud. Then stack the block on top of the tower at right angles to the blocks just below it.

Removing and stacking blocks

- Remove and stack one block per turn. Remember – use only one hand (you can switch hands whenever you wish).
- As play proceeds and the weight of the tower shifts, some blocks become looser than others and are easier to remove. You can touch other blocks to find a loose one – but if you move a block out of place, you must put it back in place (using one hand only) before touching another block.
- While stacking, always complete a 3-block story before starting a higher one.
- Your turn ends 10 seconds after you stack your block – or as soon as the next player touches one.
- Keep removing and stacking blocks until someone makes the tower fall. A real pro can build a tower 36 stories high or more!

Solo Jenga Game Play:

Play alone for practice! Can you top your record height before the **National Parks Edition Jenga®** tower falls?

- Carefully remove one block from any level. Use a steady hand to stack it on top.
- Continue to remove and stack blocks to build the tower taller. . . and shakier.
- How tall is too tall? Find out when the tower falls.

Winning:

If you're the last player to stack a block without making the tower fall, you win! The player who makes the tower fall has to recite **"This Land is Your Land"** while setting up the tower for the next game.

Storage:

Build the Jenga® tower using the loading tray. Carefully pick up the loading tray and tower and place both inside the box.
